MAPEI RESIN SYSTEMS FOR SPORTS FACILITIES

Sport is becoming increasingly characterised by the relationship between the actual performance of athletes and the structures in which athletes perform. The quality of a pitch or court is fundamental in defining the excellence of such structures. This is why Mapei, backed by its wealth of experience, dedicates the utmost attention to sport. The proposals, which make up the most complete and articulated range available in the sports sector, are proof of this commitment: a reference for all those architects, designers and engineers who, in one form or another, are involved with sports complexes, playing fields, gymnasiums and race or athletics tracks. Mapei has a host of cutting-edge solutions available for everyone to help create acrylic and polyurethane resin courts and pitches. Surfaces with perfect performance characteristics to help you perform in perfect safety.

CERTIFICATIONS

The full range of ITF (International Tennis Federation) certified systems

ITF (International Tennis Federation) certified MAPECOAT TNS FINISH 1.3.4 finishes

FIA and FIM homologation

B_{FL}-s1, B_{FL}-s2 and C_{FL}-s1 Fire Resistance Certified

ASSOCIATIONS AND MEMBERSHIPS

ITF Foundation – International Tennis Federation Foundation

ASBA – American Sports Builders Association

SAPCA – Sports and Play Construction Association

SAPIA - Sports and Play Industry Association

STC – Synthetic Turf Council

MAPECOAT TNS CUSHION REC is a multilayer flexible acrylic resin-based waterborne system designed for prograde tennis courts installation. Suitable for indoor and outdoor installations, both on concrete and asphalt substrates. It is composed of a flexible undercoat (cushion), which makes it possible to create high-performance floorings granting reduced impact trauma and a good comfort, as well as excellent technical performances and a good slide/balance ratio for the final user. ITF 1 certified system.

MAPECOAT TNS REINFORCED is a multilayer acrylic resin-based waterborne system designed for refurbishment of tennis courts, in combination with MAPENET 150 alkali-resistant glass fibre mesh. This system is suitable for indoor and outdoor courts thanks to the enhanced tensile strength: it is specifically designed for both worn out damaged bituminous and cementitious substrates with no need to repave the whole court. Forms a highly resistant, comfortable, even playing surface for safe, high-speed rallies with consistent ball bounce

Mapecoat TNS Race Track

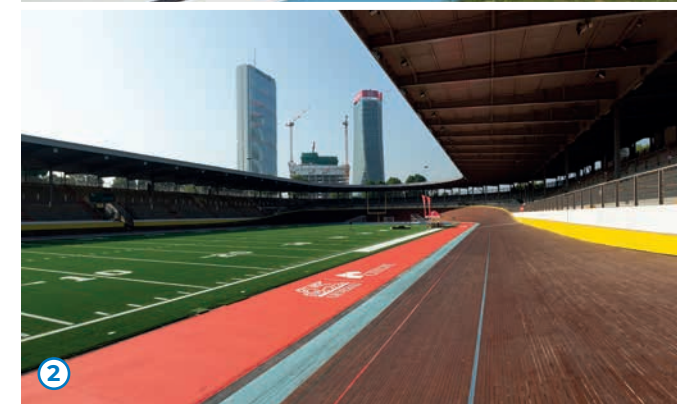

MAPECOAT TNS RACE TRACK is a rapid film-forming acrylic resin-based system used to create road markings, colours and logos on motor racing circuits. Suitable for indoor and outdoor installations, both on cement and asphalt substrates. It allows highly durable, non-slip surfaces to be created that maintain their surface roughness over the years, including in wet conditions. Moreover, MAPECOAT TNS RACE TRACK meets all the approval and safety standards required by FIA (Federation Internationale de l'Automobile) and FIM (Fédération Internationale de Motocyclisme).

Mapecoat TNS Protection

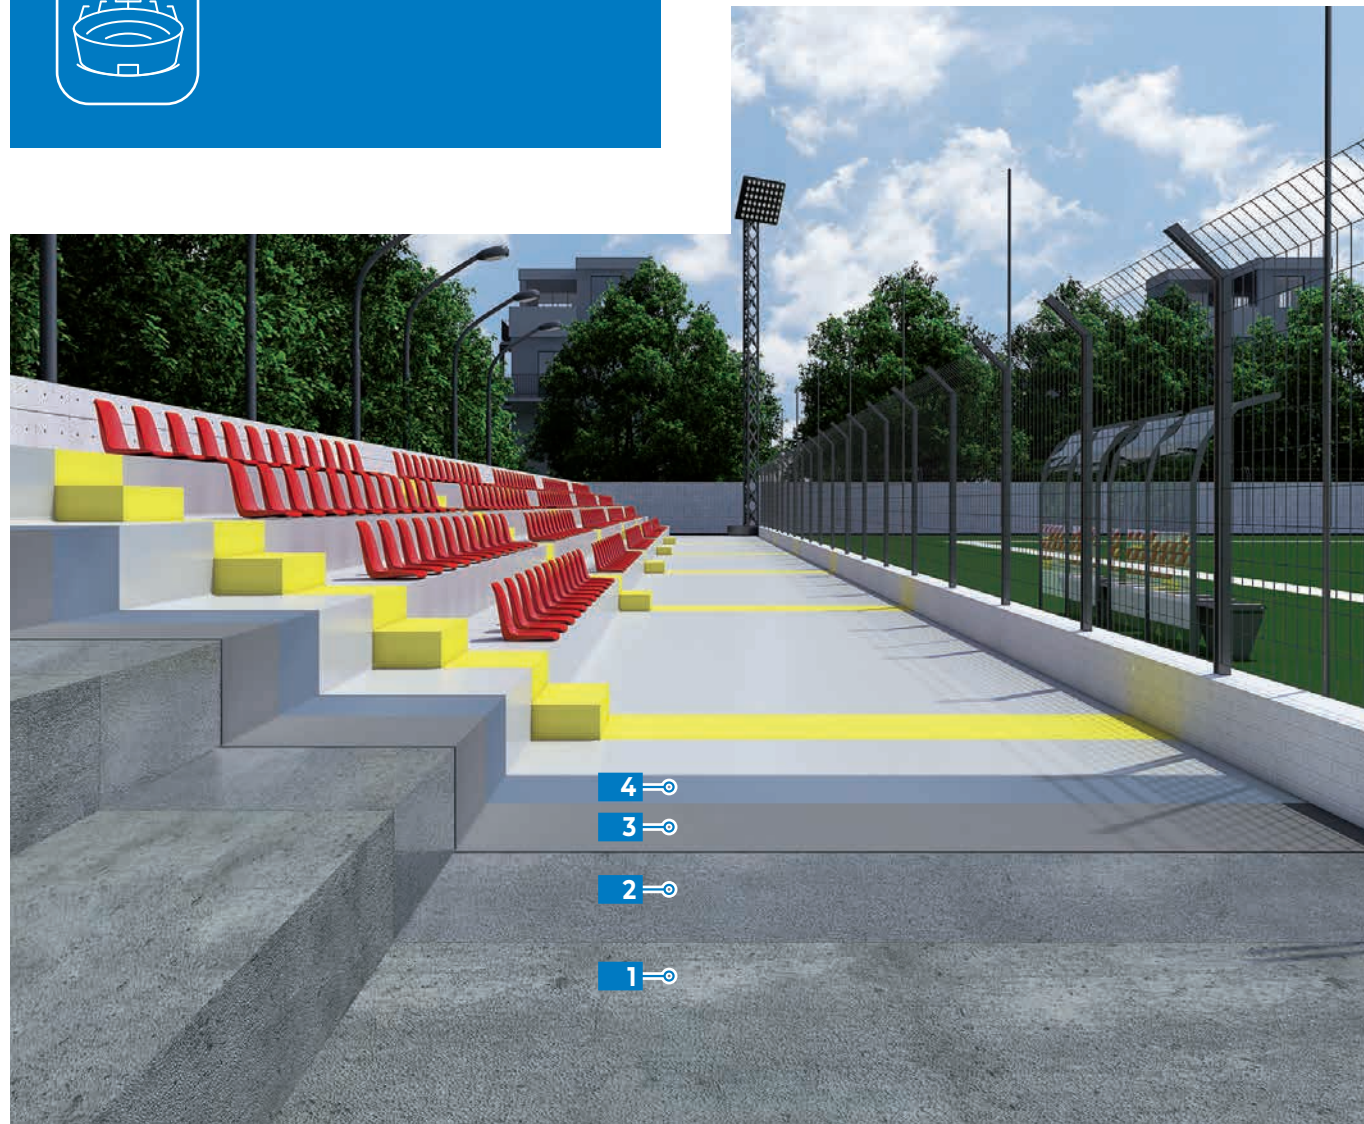

MAPECOAT TNS ARENA is a multilayer rapid film-forming acrylic waterborne system for pedestrians and high footfall areas coating in sport facilities such as stadiums. MAPECOAT TNS ARENA is a protective coating therefore increasing the durability of the structure. The high anti-slippery properties of the system, even in wet conditions, are enhancing the safety requirements for the spectators areas.

PU PROFESSIONAL is a multilayer polyurethane resin-based system used to create sports surfaces for playing bowls. Suitable for indoor and outdoor installations, both on concrete and asphalt substrates. High resistance to impact loads from bowls balls, with a finish to promote precision bowling and guarantee high performance surfaces that resist wear over the years.

- 1** Bowls court, Sesto Fiorentino (Florence), Italy
- 2** Bowls court, Vobarno (Brescia), Italy
- 3** Bowls court, Sesto Fiorentino (Florence), Italy

SPECIALTIES

MAPECOAT TNS PAINT

Mapecoat TNS Paint is a waterborne coloured acrylic paint with selected fillers.

WHERE TO USE

- Coating for indoor and outdoor surfaces for basketball, volley and futsal courts, skating areas, velodromes, multi-purpose sports surfaces.
- Creation and restoration of sports surfaces coated with synthetic resins.
- Maintenance and colouring of porous cementitious surfaces for tennis courts or multi-purpose sports surfaces.
- Coating and colouring of pedestrian areas and cycle lanes made from cementitious substrates, including porous and bituminous conglomerate substrates.

MAPECOAT TNS PROTECTION

Protective finish for indoor and outdoor tennis courts, multi-purpose playing surfaces, pedestrian areas and cycle paths.

WHERE TO USE

- Maintenance operations on new and already existing surfaces such as tennis courts, multi-purpose playing surfaces, pedestrian areas and cycle paths previously coated with a product from the Mapecoat TNS range.
- Maintenance operations on internal and external surfaces previously coated with synthetic resin.

SPECIALTIES

MAPECOAT TNS FAST

Waterborne, acrylic resin-based, rapid film-forming, coloured coating to protect surfaces subject to a high level of footfall, including driveways.

WHERE TO USE

- Protecting and colouring the surface of concrete in areas subject to a high level of footfall, such as spectator stands in sports facilities.
- Protecting and colouring the surface of concrete, decorative concrete and self-blocking concrete block paving.
- Protecting and colouring the surface of bituminous conglomerate.
- Protecting and marking out the surface of access/exit routes in sports facilities, such as ramps and parking areas.
- Colouring and protecting concrete architectural elements.
- Marking out cycle lanes/tracks and pedestrian areas and areas accessible to light vehicles.
- Coating and colouring wet areas subject to heavy footfall, such as around the edges of swimming pools.

PU GYM REFRESH

PU Gym Refresh is a waterborne aliphatic polyurethane topcoating for durable coating and protection of sports and leisure flooring.

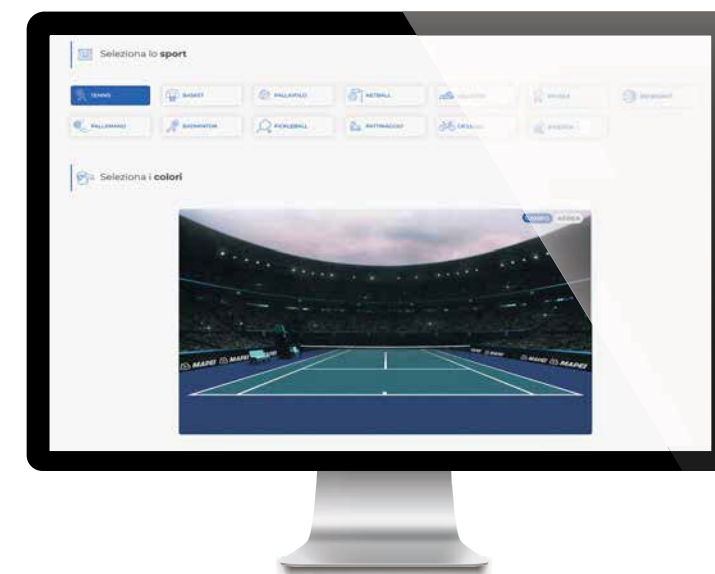

WHERE TO USE

- Protecting and colouring resilient flooring such as PVC, rubber or linoleum indoor sports flooring.
- Redevelopment and refurbishment of indoor sports flooring such as in school or private gyms, fitness centres etc.
